

Day-ahead accuracy under the leak-free protocol (mean over five seeds)

leading models per benchmark on a shared scale, with the proposed model always shown; on GEFCom2014 it is mid-table by point error, yet no baseline beats it significantly under the Holm-corrected Diebold–Mariano test

GEFCom2014 · proposed ranks 11 of 15

PJM · proposed ranks 1 of 15

AEMO · proposed ranks 2 of 15
