

Day-ahead accuracy under the leak-free protocol (mean over five seeds)

leading models per benchmark on a shared scale, with the proposed model always shown; on GEFCom2014 it is mid-table by point error, yet no baseline beats it significantly (Table 8)

GEFCom2014 · proposed ranks 11 of 14

PJM · proposed ranks 1 of 14

AEMO · proposed ranks 1 of 14
